Docket No. 98N-1265 0481 '99 APR 26 11:39
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am using compounded natural hormones to alleviate depression, anxiety, sleeplessness, etc...
I looked for years to find help for these symptoms & found help eventually through a "specialty" pharmacy. It has made a tremendous difference in the quality of my life and health.
These natural hormones are not available through most pharmacies. I rely solely on my specialized pharmacy & object to the definition of "inordinate amount" contained in the M.O.U. This limitation would restrict my access to the medication I need & would compromise the quality of my life.
Please do not restrict my access to this specialized medication that has made my life much better.
Thank you.
